PROFILE

Frontend Developer skilled in building responsive web applications using React, JavaScript (ES6+), HTML, and CSS. Experienced in API integration, state management, and performance optimization through hands-on projects. Actively seeking entry-level frontend opportunities to build scalable and user-centric applications.

SKILLS

Languages: JavaScript (ES6+)

Frontend: HTML5, CSS3, React.js, Redux

Concepts: DOM Manipulation, API Integration, Responsive Design, State Management

Tools: Git, GitHub, VS Code, Chrome DevTools, Vite

PROJECT EXPERIENCE

Frontend Developer

Jan 2025 – Present

- Built 5+ responsive web applications using HTML, CSS, JavaScript, and React
- Implemented dynamic UI features using DOM manipulation and event handling
- Integrated REST APIs to fetch and display real-time data
- Improved application performance by optimizing rendering and reducing unnecessary re-renders
- Practiced version control using Git and GitHub for project management

PROJECTS

Recipe Finder Web App

Tech Stack: React.js, Vite, CSS, REST API

- Developed a responsive recipe search application with dynamic data rendering
- Integrated external REST API to fetch recipes, ingredients, and instructions
- Implemented search and filter functionality for better user experience
- Optimized UI for mobile and desktop responsiveness
- GitHub: [<link>](#) | Live: [<link>](#)

Weather Forecast Web App

Tech Stack: JavaScript, HTML, CSS, REST API

- Built a real-time weather application displaying temperature, humidity, and conditions
- Integrated third-party Weather API for live updates
- Designed dynamic UI with weather-based visual changes
- Ensured cross-device compatibility using responsive design
- GitHub: [<link>](#) | Live: [<link>](#)

EDUCATION

Dr. B.R. AMBEDKAR UNIVERSITY, AGRA

Bachelor of Arts (B.A)

2022 – 2024
